 [gitlab.com/dashboard/projects](https://gitlab.com/dashboard/projects)  [linkedin.com/in/harshithasivalingala](https://linkedin.com/in/harshithasivalingala)

## EDUCATION

### BVRIT HYDERABAD College of Engineering for Women

Hyderabad, Telangana

B.Tech in Information Technology | CGPA : 7.6

Aug 2019 - May 2023

### Narayana Junior College

Hyderabad, Telangana

Senior Secondary | Percentage: 94.7

May 2017- May 2019

### Hindu Public School(CBSE)

Hyderabad, Telangana

Higher Secondary | CGPA : 10

June 2016 - April 2017

## PROJECTS

### Goats and Tigers | *python , pygame*

March '20

- It is an ancient board game where the goats are captured by tigers ,while goats try to block tigers.
- the coins on the board are moved based on the input given by the user from the text box. The project includes music and good GUI.

### Pose Estimation | *machine learning , open CV*

June '20

- Devised a deep neural network model to superimpose the pose estimation on the real-time feed.
- Human pose estimation is defined as localization of human joints in video or images.
- Developed a fitness application using human pose estimation by capturing movement of the user while one exercise and keeps track of the count.

### Konnekt | *React , Redux , Firebase*

March '22

- Konnekt is a business communication platform where in the users work together by connecting through chat rooms.
- These chat rooms are segregated into public and private rooms. Any user can enter public chat rooms where as private chat rooms need room code to enter.
- There can also be one on one chat between the users.

### Portfolio | *React JS , Heroku*

June '22

- This website displays collection of my professional projects, skills as well as work experiences.
